

# Damilare Osibanjo

Aspiring Quantitative Analyst | Data & Cybersecurity Enthusiast | Full-Stack Developer

■ damiade5banjo@gmail.com | ■ instagram.com/nulisdami

## ■ About Me

I'm Damilare Osibanjo, a dedicated programmer with strong interests in quantitative finance, cybersecurity, and full-stack development. I work across low-level systems, modern web stacks, and data science. I enjoy problem-solving, analyzing data, and building secure systems. I'm 16 and currently in SS3 at Yeshua High School, Nigeria.

## ■ Technical Stack

Languages: C, C++, Python, Go, Assembly (x86/ARM), SQL

Web Development: HTML5, CSS3, JavaScript, TypeScript, React, Vite, TailwindCSS, Node.js, Express, Socket.IO, Flask

Data Science/ML: NumPy, Pandas, Matplotlib, Scikit-learn, Plotly, Keras, PyTorch

Tools & Platforms: Git, GitHub, Firebase, Tampermonkey

## ■ Interests & Values

- Deep interest in Quantitative Finance, Machine Learning, and Security Research
- Advocate of system efficiency and ethical technology
- Strong analytical background in history, geopolitics, and system philosophy
- Committed to lifelong learning and continuous growth

## ■ Currently Exploring

- Reinforcement Learning & Statistical Arbitrage
- Cybersecurity (Pentesting & Network Security)
- Building low-level systems in C and Assembly
- Scalable backend systems using Go and Python
